

Join us for...

Parent-to-Parent Workshops

Social media, peer pressure,
parties, drug trends and
underage drinking...it's not
easy raising teens!

Operation: PARENT's Workshops are the perfect way to raise your awareness regarding today's teen and pre-teen culture.

Each of the sessions will begin with a video, followed by an open discussion led by a trained facilitator. The videos cover a variety of issues unique to raising pre-teens and teens in today's culture.

You will leave with practical strategies for raising great kids and understand that you are not alone while navigating the teen and pre-teen years. Parents will be well equipped to prevent and intervene while having a network of parents to support them through the process.
